

Illustration of TaxonomyTree.addSpecies

The following shows the structure of the TaxonomyTree after three example calls to addSpecies.

Note: This diagram is for illustration / understanding purposes only.

```
addSpecies      names = [ "Animalia", "Chordata", "Mammalia", "Carnivora", "Canidae", "Canis", "Canis Lupus" ]  
                categories = [ "Kingdom", "Phylum", "Class", "Order", "Family", "Genus", "Scientific.Name" ]
```

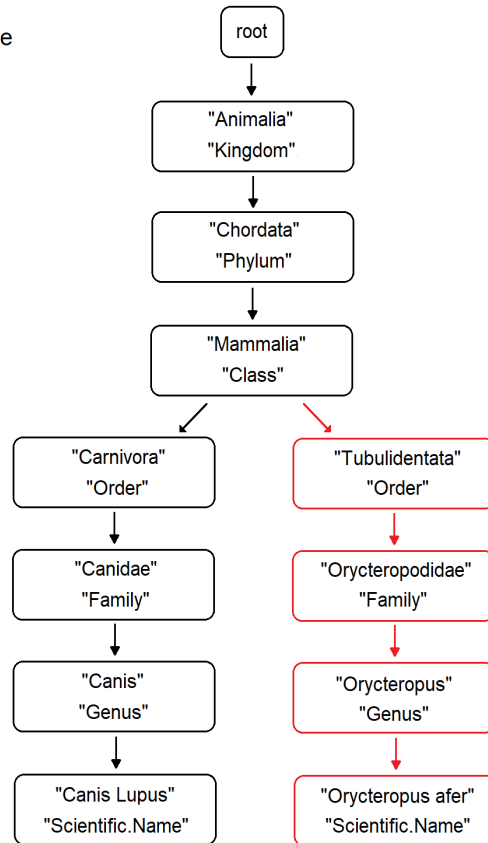

TaxonomyTree

addSpecies

```
names = [ "Animalia", "Chordata", "Mammalia", "Tubulidentata", "Orycteropodidae", "Orycteropus", "Orycteropus afer" ]  
categories = [ "Kingdom", "Phylum", "Class", "Order", "Family", "Genus", "Scientific.Name" ]
```

TaxonomyTree

addSpecies

```
names = [ "Animalia", "Chordata", "Amphibia", "Anura", "Pyxicephalidae", "Pyxicephalus", "Pyxicephalus adspersus" ]
categories = [ "Kingdom", "Phylum", "Class", "Order", "Family", "Genus", "Scientific.Name" ]
```
